Representative Roger E. Barrus proposes the following substitute bill:

ELECTRICAL TRANSMISSION FACILITY SITING STUDY ACT

2014 GENERAL SESSION STATE OF UTAH

Chief Sponsor: Roger E. Barrus

Senate	Sponsor:	
	_	

LONG TITLE

General Description:

This bill enacts the Electrical Transmission Facility Siting Study Act.

Highlighted Provisions:

This bill:

- enacts the Electrical Transmission Facility Siting Study Act, including:
 - defining terms;
 - requiring the Public Service Commission to conduct a study related to an electrical transmission facility;
 - addressing the procedures and requirements for the study;
 - requiring a person who intends to construct an electrical transmission facility

within the state to provide certain notice to the Public Service Commission;

- addressing reporting requirements; and
- providing that the study is in addition to any other requirement provided by law.

Money Appropriated in this Bill:

None

Other Special Clauses:

This bill provides an immediate effective date.

54-20-102, Utah Code Annotated 1953

54-20-103, Utah Code Annotated 1953

54-20-104, Utah Code Annotated 1953

54-20-105, Utah Code Annotated 1953

Be it enacted by the Legislature of the state of Utah:

Section 1. Section **54-20-101** is enacted to read:

CHAPTER 20. ELECTRICAL TRANSMISSION FACILITY SITING STUDY ACT 54-20-101. Title.

This chapter is known as the "Electrical Transmission Facility Siting Study Act."

Section 2. Section **54-20-102** is enacted to read:

<u>54-20-102.</u> Definitions.

As used in this section:

- (1) (a) "Construction" means the <u>clearing of land</u>, excavation, construction, or <u>installation of an electrical transmission facility.</u>
 - (b) "Construction" does not include:
 - (i) a study or report related to an electrical transmission facility; { or }
- (ii) an action reasonably necessary to determine the location of an electrical transmission facility corridor (...

<u>}:</u>

(iii) the use of property to secure geological data, including a necessary boring or

drilling to ascertain foundation conditions;

- (iv) conducting an action that is reasonably necessary to operate or maintain an existing electrical transmission facility, including:
 - (A) performing maintenance;
 - (B) making a repair or replacement;
 - (C) reconductoring;
 - (D) performing vegetation control; or
- (E) making an expansion or improvement unless the expansion or improvement involves the addition of 1,000 or more megawatts of capacity to the existing electrical transmission facility; or
- (v) performing the design, installation, or construction of an interconnection with an existing electrical transmission facility unless the design, installation, or construction involves the addition of 1,000 or more megawatts of capacity to the existing electrical transmission facility.
 - (2) (a) "Electrical transmission facility" means a system:
 - (i) for {providing}transmitting electrical power; and
 - (ii) that has a capacity of at least 1,000 megawatts.
- (b) "Electrical transmission facility" includes {equipment, a fixture, a plant, or a structure} the following associated with providing electrical power;
 - (i) an access road;
 - (ii) equipment;
 - (iii) a fixture;
 - (iv) a line;
 - (v) a plant;
 - (vi) a structure;
 - (vii) a terminal; or
 - (viii) a substation.
- (3) "Electrical transmission facility corridor" means a transmission line route of an electrical transmission facility.
 - Section 3. Section **54-20-103** is enacted to read:
 - <u>54-20-103.</u> Study by commission -- Procedures and requirements.

- (1) A person may not commence the construction of an electrical transmission facility within the state before the commission:
 - (a) completes the study required by this section; and
 - (b) makes the report required by Section 54-20-104.
- (2) The commission shall begin the study required by this section no later than 30 days after the earlier of:
- (a) the date the commission receives a written request to conduct the study from the chairs of the Executive Appropriations Committee; or
 - (b) the date the commission receives the notice described in Subsection (3).
- (3) (a) Except as provided in Subsection (3)(b), on or before the date a person files the first application for a right-of-way with respect to an electrical transmission facility the person seeks to construct within the state, the person shall file a written notice with the commission stating that the person has filed or will file an application for a right-of-way with respect to the electrical transmission facility the person seeks to construct within the state.
 - (b) A person is exempt from Subsection (3)(a) if, on or before January 1, 2014
- (i) the person has filed the first application for a right-of-way with respect to an electrical transmission facility the person seeks to construct within the state; or
 - (ii) the person was a project entity as defined in Section 11-13-103.
 - (4) The notice described in Subsection (3)(a) shall include:
 - (a) the name and address of the person who provides the notice;
- (b) the name and address of any other person who is responsible for permitting the electrical transmission facility;
- (c) a description of the nature and proposed location of the electrical transmission facility;
- (d) the estimated date of commencement of construction of the electrical transmission facility; and
- (e) the estimated time frame for completing the construction of the electrical transmission facility.
- (5) The electrical transmission facility that is the subject of a study required by this section shall pay the costs of the study.
 - (146) The commission shall complete the study required by this section no later than

six months after the date the commission begins the study.

- ({5}<u>7</u>) Subject to {Subsection} <u>Subsections</u> ({7}<u>9</u>) and (10), the study required by this section shall analyze the impacts and benefits of constructing the electrical transmission facility in the state, including:
- (a) an analysis of the impacts and benefits of proposals on the placement of the electrical transmission facility corridor;
- (b) an analysis of economic impacts and benefits of constructing the electrical transmission facility in the state;
- (c) an analysis of how population growth may impact electrical transmission needs and the extent to which the electrical transmission facility will address those needs;
- (d) an analysis of the extent to which the electrical transmission facility will provide electrical on-ramps or off-ramps within the state;
- (e) the identification of areas where the interconnection of the electrical transmission facility with one or more electrical systems in the state will provide the greatest benefit to the state;
- (f) the identification of areas in the state that will be most impacted by the electrical transmission facility; and
- (g) an evaluation of the level of capacity of the electrical transmission facility that will provide the greatest benefit to the state.
- ({6}<u>8</u>) The study required by this section may include an evaluation of other issues as determined by the commission.
- (9) If an electrical transmission facility that is the subject of a study under this section is a public utility, the commission may not require the study of an issue under this section that is duplicative of an issue the commission studies as part of the regulatory process.
- ({7}<u>10</u>) In conducting the study required by this section, the commission may consider information provided in an environmental impact {statement} analysis, but may not focus the study on the environmental impacts of the electrical transmission facility.
- ({8}<u>11</u>) The commission shall conduct the study required by this section in consultation with:
 - (a) the Governor's Office of Economic Development;
 - (b) the Office of Energy Development;

- (c) county legislative bodies of counties impacted by the electrical transmission facility; and
 - ({c}d) any other federal, state, local, or private entity as requested by the commission.
- (19)12) The commission shall receive public testimony as part of the study required by this section.

Section 4. Section **54-20-104** is enacted to read:

<u>54-20-104.</u> Commission report to Executive Appropriations Committee -- Commission report to Public Utilities and Technology Interim Committee -- Findings and recommendations.

- (1) The commission shall provide a written report of its findings and recommendations on the study required by Section 54-20-103 to the Executive Appropriations Committee within 10 days after the date the commission completes the study.
- (2) The commission shall make reports to the Public Utilities and Technology Interim Committee as requested by the chairs.
- (3) (a) As part of its findings and recommendations, the commission shall provide options to the Executive Appropriations Committee to address the impacts and benefits of constructing the electrical transmission facility in the state.
 - (b) The options described in Subsection (3)(a) shall include:
- (i) an analysis of the extent to which {impact fees} a tax, fee, or charge would mitigate the impacts of constructing the electrical transmission facility in the state; and
- (ii) an analysis of whether statutory changes are necessary to address the impacts of constructing the electrical transmission facility in the state.

Section 5. Section **54-20-105** is enacted to read:

54-20-105. Requirements of chapter are in addition to other requirements of law.

The requirements of this chapter are in addition to any other requirement provided by law.

Section 6. Effective date.

If approved by two-thirds of all the members elected to each house, this bill takes effect upon approval by the governor, or the day following the constitutional time limit of Utah

Constitution, Article VII, Section 8, without the governor's signature, or in the case of a veto, the date of veto override.
